I95-04-044	Order Instituting Investigation on the Commission's Own Motion Into Competition for Local Exchange Service.

**Summary: AUGMENTATION REQUIRED.** On July 12, 2001, Cynthia Marshall – Senior Vice President of Regulatory of Pacific Bell Telephone Company (PacBell), talked with Bob Wullenjohn, advisor to Cmmr. Brown. Written material (attached to the notice) was used. Marshall expressed her concern that the comment cycle was unduly long. Marshall stated that the Commission did not even acknowledge PacBell's proposed comment cycle and PacBell was not given an opportunity to object to the schedule promulgated at the July 9 pre-hearing conference. Marshall explained that this undue delay hindered PacBell from bringing the benefits of increased long distance competition to the consumers.

----------	------------	---

**Summary: LATE FILED.** On July 11, 2001, Marcel Hawiger, attorney with The Utility Reform Network, met with Belinda Gatti, advisor to Cmmr. Brown, in San Francisco. Hawiger stated that allowing the Pacific Gas and Electric Company (PG&E) open season to continue prejudices the post-Gas Accord structure of the PG&E backbone system. Hawiger stated that it will be difficult for the Commission to later modify or rescind the results of the open season if customers are required to make a binding commitment.

07/17/01	A00-06-032	Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.
----------	------------	---

**Summary: LATE FILED. AUGMENTATION REQUIRED.** On July 11, 2001, Marcel Hawiger, attorney with The Utility Reform Network (TURN), participated in an all-party meeting with Cmmr. Wood in San Francisco. Also present were Steve Weissman, advisor to Cmmr. Duque, and several other parties. Hawiger stated that TURN supports the proposed decision, with modifications. Hawiger stated that the alternate erred in at least two ways. Hawiger explained that an interruptible peaking tariff would essentially provide firm service on the Southern California Gas Company system, and that the capacity to meet peak demand was exemplified by the lack of curtailments during the extreme conditions of the past winter. Hawiger explained further that it was the historic glut in interstate pipeline capacity that limited new expansions. Hawiger argued that the alternate was not based on the record or other facts when it assumed that the residual load service tariff prevented pipeline capacity expansions. Hawiger pointed out that the alternate was incorrect in stating that reduced ITCS charges would lower the cost shift to core customers. Hawiger stated that TURN supports modifications to make all existing power plants subject to the multiple-facility rule. Hawiger stated that TURN supports including ITCS stranded costs within the monthly reservation charge of the peaking tariff.

----------	------------	--

**Summary:** On July 12, 2001, Cynthia Marshall, Senior Vice President of Regulatory &

Constituency Relations of Pacific Bell Telephone Company (PacBell), met with Cmmr. Wood in San Francisco. Also present were Jonathan Lakritz, advisor to Cmmr. Wood, Stephanie Krapf, attorney, Pacific Telesis Group, and Yvette Hogue, Executive Director or Regulatory Matters, and Renee Stiles, General Manager of Regulatory Proceedings, for PacBell. Written material (attached to the notice) was used. PacBell representatives stated that the draft arbitrator's report (DAR) improperly rules in favor of MCImetro Access Transmission Service, L.L.C.'s (MCIIm) position. PacBell urged the Commission to reconsider the DAR. PacBell stated further that the DAR correctly finds that OS & DA are not unbundled network elements. PacBell representatives noted that PacBell is working actively with MCIIm to test the technical feasibility of MCIIm's alternate customized routing proposal.

07/18/01      A00-06-032      Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.

**Summary: LATE FILED.** On July 11, 2001, Michael Day of Goodin, MacBride, Squeri, Ritchie & Day, counsel for Kern River Gas Transmission Company and Questar Southern Trails Pipeline (Questar), met with Cmmr. Wood in San Francisco. Also present were Steve Weissman, advisor to Cmmr. Wood, Mark Pocta of the Office of Ratepayer Advocates, Ned Greenwood, project manager for Questar, Avis Clark, Sally Yoo, and Craig Chancellor of Calpine Corporation, Marcel Hawiger of The Utility Reform Network, Claudine Swartz, Jeff Hartman, Alison Smith, and Leslie Katz of Sempra Energy, Tom Beach of Watson Cogeneration Company, and Norman Pedersen of the Southern California Generation Coalition. Day indicated that the Interstate Pipelines supported the peaking rate methodology contained in the alternate. Day indicated that the Interstate Pipelines recommend deleting the portion of the alternate that called for a review of the peaking rate in the next biennial cost adjustment proceeding as this would cause continued uncertainty. Day also noted that the Interstate Pipelines also recommended a 120 percent cap on interruptible rates. Day asserted that application of the peaking rate to new customers was unwarranted.
